PO Box 132 Braidwood NSW 2622 Australia

**Name of Actual Inventor(s):**

Gourlay, Robert

**Title of Invention:**

A magnetic water conditioning device that restores water to its natural negative charge that is present in pristine flowing water using non mechanical methods to induce the vortex, and a magnetic configuration using sacred geometry to permanently hold the negative charge in the water. Orbtek research confirms that all living bodies eg. soil plants animals and humans are designed to sustain cellular negative charge through the use of negatively charged water.

**Term of Patent:**

Eight years from 11 January 2016

NOTE: This Innovation Patent cannot be enforced unless and until it has been examined by the Commissioner of Patents and a Certificate of Examination has been issued. See sections 120(1A) and 129A of the Patents Act 1990, set out on the reverse of this document.
